## About Me

As a front-end developer with a background in commerce education, I bring a unique perspective to the world of web development.

## Highlights

- + Strong problem-solving skills
- + Fluent in Chinese and English
- + HTML, CSS, Git, Unit testing, responsive design, JavaScript and React.js
- + 1 year experience in front end development
- + Currently learning TypeScript and TailwindCSS
- + Ability to work collaboratively
- + Experience with various blockchain platforms
- + Passion for staying up-to-date with emerging trends

## Education

### University of Auckland Master in Economics

2013 - 2014 · Auckland

My dissertation focused on analyzing the causes and effects of business cycles, as well as exploring alternative monetary systems that promote economic growth and stability.

### University of Auckland Bachelor(Honours) in Economics

2013 · Second Class Honours · Auckland

### University of Auckland Bachelor in Accounting and Finance

2009 - 2013 · Auckland

## Experience

### Tsui Fook Kam Limited - Department Manager

2016 - 2022 · Shenzhen · China

- As a member of a family business, I gained valuable experience in project management, team collaboration, and effective communication.
- I was responsible for various tasks such as marketing, sales, and production, which helped me develop a strong business acumen and a keen understanding of customer needs.
- I played an instrumental role in developing and managing the e-commerce department, and oversaw the creation and implementation of our own online ordering system, which streamlined our operations and increased customer satisfaction.

### Morningstar · Fund Data Analyst

2015 - 2016 · Shenzhen · China

- I was responsible for collecting and analyzing data on mutual funds and exchange-traded funds (ETFs) for use in Morningstar's investment research and analysis tools.
- My work involved conducting detailed research on global fund portfolios, performance, and expenses, and using that information to develop and maintain accurate data sets.
- I also collaborated with other Morningstar offices around the globe to ensure that our data was up-to-date and relevant to the needs of clients.

## Projects

### [www.zofycasper.com](http://www.zofycasper.com)

2023 - Present

- My personal profile page.
- The portfolio features several projects that I developed both as coding exercises and tools that I use personally. These projects demonstrate my proficiency in coding and showcase my ability to design and build practical solutions.
